

FOURTEENTH MEETING.

THE BOARD OF HEALTH meets in the Committee Room, City Hall on Tuesday, October 12th, 1920, at 4 p.m.

PRESENT: Messrs. J.H. Saunders (Chairman) E.H. Russell, Dr. Downham and Mrs. Partridge.

155. MINUTES.

The minutes of the thirteenth meeting are confirmed and signed by the Chairman.

156. WATER EXAMINATIONS (See pars. 43, 59, 75, 98, 119, 130, 144.)

Dr. A.J. Slack reporting re water examinations, namely:-

	Filed.					

157. RESTAURANTS.

S. Baker certifying that the Municipal Council, at its last session, adopted the following motion, viz:-

"That whereas there is considerable doubt in the minds of the Citizens of London that the Restaurants of the City are maintained in as clean and sanitary condition as is desirable, and that the Board of Health Sanitary Inspector have examined these places as carefully as is desired;

Be it resolved that the Local Board of Health be requested to make and submit proposed regulations for inspections, and reports to be placed prominently in each restaurant as to the sanitary condition of each of said restaurants somewhat similar to that used in the City of Toronto."

Maple Leaf Cafe - Oct. 9th, 1920.

Some time ago we had the pleasure of a call from members of Your Board for the purpose of inspection, but I regret that so far no report has been received by us as to the results of your inspection.

Will you please let us know, or have a Certificate from your Board as to the state in which you found the Maple Leaf Cafe when you called. In what class do you place the same as a public eating house?

This information is not only desired by the management as a just recognition of any efforts put forth by us to satisfy the public, but also by our patrons who are asking how we rank with the other cafes. Surely after the Newspaper Campaign to obtain clean restaurants in London, we are entitled to what assistance you are able to give along the line of a report as to conditions when you called.

J.W.G. Wimmett. Oct. 5th, 1920.

The City Council has forwarded to you a request asking you to inspect and grade the different restaurants in the City of London. I am representing the Chinese restaurant keepers, and beg leave to call your attention to the following facts:-

First, to do as the City Council requests would be a very grave injustice to the restaurant keeper, whose place might not be in as good a condition as some of the others, and such conditions might be entirely beyond his control.

Secondly, I do not think that the Public Health Act gives your Board, the power to do as the City Council has requested, and I would request you to look into this phrase of the question before passing any resolution with a view to carrying out the wishes of the Council.

I do not desire to be understood as objecting to any inspection the Board may see fit to make from time to time but what I do object to and object most seriously, is the grading of these places or the publication of the results of your inspection which I contend is quite beyond your authority or that of the Council.

The citizenship of my clients are open to the inspection not only of your officers, but to their patrons at all times and as

the latter are the people most vitally affected it might surprise you to know that they frequently avail themselves of this privilege.

Dr. Hastings in reply to Dr. Downham states that the report from Toronto is retained in his office.

Dr. Downham submitted a copy of Health Bulletin No. 7 July 1920 which shows the High Standard Certificate for Restaurant, viz: Toronto, ... 19..

THIS IS TO CERTIFY that Mr. has
Proprietor of at
complied with the regulations issued by the "Local Board of

Health" of Toronto, in respect of the
Equipment, Administration and General Method of Operation of this
Restaurant

and, having obtained points out of a possible 100, it is hereby placed in "Class A". Should the present High Standard of Efficiency not be maintained, this Certificate will be Cancelled, viz:-

Dr. Downham submits proposed Health regulations, viz:-
Upon motion the Restaurant Regulations matter is laid over

until Rules and Regulations governing Restaurants, Public Dining Rooms, Kitchens, Etc., in the City of London.

1. The word "Restaurant" or "Kitchen" as hereinafter referred to in this ordinance shall include all hotels, cafes, eating houses, of every description, or any place within the City of London where for pay persons are served with food or furnished with table board, or where food is cooked, baked or prepared for serving to the public, excepting, however, private houses occupied by a family, in which boarders are kept under private arrangement, and that are not catering to the general public for patronage.

Any person desiring to operate or maintain a Restaurant in the City of London must first make an application in writing therefore to the Medical Officer of Health, giving the name of each person or firm in full, and the street and number. The Medical Officer of Health shall forthwith cause such premises to be thoroughly inspected together with all appurtenances, and, if they shall have complied with the requirements, the Medical Officer of Health shall recommend to the License Inspector, or to the Mayor and Council of the City of London that a license be granted.

All licenses shall be posted in a conspicuous place upon the premises for which they are granted.

The word "person" as used in this ordinance shall be construed to mean and include person, firm, society, association, corporation or individual; the singular shall be construed to embrace the plural, and the masculine the feminine.

The word "basement" shall be construed to mean the lower storey of any building which is less than half of its height below the grade of the street or streets upon which it falls, or the general level of the adjacent grounds. The word "cellar" shall be understood to mean the lower storey of a building, half of which is below the level of the adjacent ground.

2. Every apartment or room in which food is served must be properly lighted and ventilated, and all plumbing therein constructed must be in accordance with the Plumbing By-law of the City of London. All rooms, apartments, and buildings, used for the purpose of cooking and is the preparation of food stuffs, shall be used exclusively for that purpose; and the rooms or places set apart for the storage of food stuffs shall likewise be properly lighted and ventilated, and must at all times be kept in a strictly sanitary condition.

3. All rooms used for the cooking and preparing of food stuffs shall have floors and walls so constructed as to exclude vermin, mice, etc., and kept in a state of good repair. Floors must be either of hardwood with tight joints, or covered with linoleum, as required by the Department.

4. No dogs, cats, or other animals shall be allowed in any restaurant or place where food is kept or prepared.

5. The rooms must be kept in a strictly sanitary condition at all times.

6. The portion of the walls of said rooms for six feet from the floor must be so constructed and finished as to be capable of being thoroughly cleansed with soap and water as frequently as maybe required by the Department of Health.

7. All furniture, tables, ranges, stoves, etc., and all appliances in such rooms shall be so arranged and placed as to permit of ready and easy cleaning on all sides, and all utensils, implements, furniture, and other appliances, shall be kept and maintained in a clean and sanitary condition.

8. No sleeping rooms, lavatories, or wash rooms shall be within the room or apartments used for the preparation of cooking of foods or for the storing of foods, nor shall they communicate directly with such rooms, but either with the open air through a properly ventilated and lighted passageway.
9. No wearing apparel, boots, shoes, or other wearing effects not being worn shall be kept in any kitchen, or any place where food is handled, and a suitable place, separate from said rooms, where food is prepared or served, shall be provided.
10. All restaurants shall maintain for the use of cooks, helpers, and others engaged in the preparation and cooking of foods, ample sanitary toilet facilities for both sexes, and washing facilities with towels, soap, and hot and cold water, to enable those so employed to keep their hands at all times in a clean condition.
11. Any person visiting any sanitary convenience must carefully wash the hands with soap and warm water before returning to his other duties.
12. No person shall work or be employed in or about any restaurant or kitchen during the time in which there is any communicable disease in his home, nor thereafter until the quarantine has been removed by the Department of Health, no person shall be employed in or about any restaurant or kitchen who is suffering from any communicable disease.
13. If any sleeping places are located on the same floor as the restaurant, they shall be well ventilated and lighted, and must not communicate directly with the aforesaid rooms.
14. All working men and employees, while engaged in the handling or preparing of food shall be provided with slippers or shoes, and a suit of washable material, which shall be used for that purpose only. The garments must at all times be kept clean.
15. All restaurants shall provide, in places where food stuffs are kept, prepared, cooked, or served to customers, full protection from dust, dirt, flies, and vermin, by glass cases where necessary, or wire screens and other modern methods, and shall cause the abatement and destruction of flies, and vermin whenever found.
16. All restaurants shall be equipped with covered metallic cans for retaining and keeping their garbage and waste in a sanitary condition, which shall be kept in such place and manner as will prevent nuisance and contamination of the kitchen and such rooms from odors, and all such refuse must be removed from the premises at least once in every twenty-four hours.
17. All restaurants shall be provided with a storeroom or suitable place for the sanitary keeping of food and food stuffs; and all refrigerators shall be thoroughly cleansed in all parts, and drained in a sanitary manner, but no refrigerator shall drain by direct communication with any sewer, unless in compliance with the plumbing laws of the City of London.
18. No dry sweeping shall be permitted in any place where food prepared or served for human consumption.
19. Restaurant kitchens and other rooms connected therewith shall be provided with ample facilities for washing and sterilizing all eating and cooking utensils and with a proper supply of hot and cold water.
20. All kitchen and dining-room floors shall be carefully mopped and cleansed or oiled at least once every twenty-four hours.
21. All knives, forks, spoons, dishes, and other tableware shall be thoroughly sterilized with steam or boiling water each time after they are used. Restaurant kitchens and other rooms connected therewith, shall be provided with ample facilities for washing and sterilizing all eating and cooking utensils, and with a proper supply of hot and cold water.
22. No table linens, napkins, etc., shall be permitted to be used by a second person.
23. All kitchens and dining-rooms shall be thoroughly screened, protected from dust and flies.
24. All licenses granted or issued under this Ordinance shall be subject to revocation at any time by the City Council in its discretion, or by the Mayor, on recommendation of the Medical Officer of Health.
25. Any person violating any of the provisions of this Ordinance and Regulations shall on conviction be subject to the penalties as set forth in the Public Health Act.

Upon motion the consideration of the matter, is laid over until the next meeting.

158. PUBLIC LIBRARY COMPLAINT (See pars. 57,73.)

Upon motion Mr. Sanders is instructed to report.

159. WHARNCLIFFE ROAD CREEK (See par. 108.)

Chairman Saunders reported inspection by himself, the Medical Officer of Health and the City Engineer; they had found no sewer connections.

Filed.

160. THOMAS CUTTLE COMPLAINT.

Thos. Cuttelle--

I wish to complain of the outside toilet at Nos. 382 and 384 Adelaide Street. I reported personally to Mr. Lutman in the month of May last, and no action has been taken. At times the odour is almost more than one can stand when working in our kitchen.

Referred to Mr. Sanders, for report.

161. EMERGENCY HOSPITAL ACCOUNT (see pars. 28,30,47,53,82,100,132.)

The Clerk states that owing to a change in the office staff, no notice had been sent to Colonel Gartshore of the meeting.

Laid Over.

162. PLUMBING BY-LAW (See pars. 103,107,139.)

Mr. Russell moves, and it is adopted, that No. 2 Committee be requested to take some definite steps respecting Plumbing regulations.

163. MCNALLY PHONE.

C.H. Beard - Sept. 20th, 1920.

With reference to the request of Dr. Hill for an extension telephone on #4816 for Dr. McNally, District Officer of Health, after our conversation, I saw Dr. Hill pointed out that a party line arrangement would be very much better as far as Dr. McNally was concerned. I also pointed out that #4816 was the City of London service in connection with their Health Dept. and correctly speaking that Dr. McNally unless he was employed by the City, was not entitled to service over this line. Dr. Hill spoke to you and mentioned that he would again have to take up the matter with the Committee as he did not think they would authorize an expenditure of \$35.20 for party line service, but I understand that you are taking up with the Chairman of the Board of Health the question of this extension set for Dr. McNally. In the meantime, I have instructed our Contract Dept. to hold back the order until we hear from you, I understand Dr. McNally is out of the town a great deal and it will only be on occasions that he will require to make use of this service and that the Institute of Public Health will pay the Board of Health the annual rental namely \$13.20, and it has been arranged to avoid any complications in toll accounts that Dr. McNally will not use #4816 for Long Distance calls so that possibly taking everything into consideration it might be the simplest solution to let them have this extension station. They understand, of course, that there will be no listing in our directory for Dr. McNally. I have cautioned our Contract Dept. that no attention must be paid to any requests or orders for additional equipment on any City service such as the Board of Health without first taking up the matter with you to find out if it has been authorized.

The Clerk states that he had agreed with Dr. Hill after consideration with the (Chairman) to the installing of a party line.

Mr. Beard had stated that if the service for the Board of Health was seriously impaired, he would be able to report to the Board the cause.

Upon motion the action of the Secretary is sustained.

164. H. RUSSELL HOUSE COMPLAINT.

H. Russell, September 23rd, 1920.

On the 30th of August I moved into 242 Oxford St., renting the house from the Landlord a Mr. Marshall, who lives at 315 Ridout St, the house is renting for \$40.00 per month which is really too much for a man in my position. I work at the L. & P.S. as a freight brakeman and receive only 43¢ per hour, but as this was the only house I could rent, and I had my family to look after, I was forced to take the house over, the Landlord assuring me that I would have no difficulty in renting rooms upstairs to help me in paying the rent.

After I moved in, I found that the plumbing especially the sink in the kitchen was in such a bad state of repair that we have not been able to use it. The pipe seems to be choked up with dirt and the plumber states that it will be necessary for him to take the plumbing out and put in new before it can be remedied. I also find that the house is alive with bed-bugs, so serious that it is impossible for me to continue to live in the house as it is at present. I have reported this condition of affairs to the Sanitary Officer, and he sent a man up to look over the house, and although the Landlord has promised to fix the house up so far nothing has been done.

I have this morning located a suitable house that I can rent. I feel that I should take immediate advantage in the interest of my family. I have therefore rented this other house despite of the fact that I have not given the Landlord of 242 Oxford Street notice that I am quitting. I feel that as the house is not in a satisfactory condition that I should not be forced to pay him another months rent in lieu of notice, and I am writing you as advised by the Soldiers' Aid Commission, placing the facts before you, and trust that should Mr. Marshall demand a further months rent that it will not be necessary for me to pay same.

Thanking you very much for giving this matter your kind attention. Mr. Sanders reported inspection of house and found it in fair condition.

Mr. Young reported plumbing inspection, which could easily be repaired.

165. TUSTIN HOUSE.

S. Baker - Oct. 1st, 1920.

At No. 2 Committee of the Council on Tuesday last, a suggestion was made that the Board of Health desired to sell the Cove Hospital.

Is the Board of Health considering this question?
Filed.

166. SANITARY INSPECTOR'S REPORT (See pars. 7, 8, 22, 51, 52, 76, 77, 91, 111, 120, 146, 147.)

James Luthan submitting report of the work done by him for the Month of September, 1920, as follows:-

Lavatories	60 of these 47 were satisfactory 13 unsatisfactory
Laundries	17 all satisfactory.
Restaurants	19 of these 14 were satisfactory 5 unsatisfactory
Butchers	12 all satisfactory.
Bakeries	17 all satisfactory.
Barbers	5 all satisfactory.
Stables	5 of these 4 were satisfactory, 1 unsatisfactory
Fruit Shops	6 all satisfactory.
Dumps	5 all in a fair condition.
Sewers	3 to be connected.
Miscellaneous	35.

The Examining Board met in the Technical and Art School Tuesday evening, September 28th, 1920, and examined an applicant for Journeyman Plumber's License; he was found to be efficient and his certificate of qualification has been forwarded to Mr. McCallum.

Filed.

168. SANITARY INSPECTOR'S REPORT.

R. H. Sanders submitting report of investigations for the month of September, 1920, as follows:-

Outside Toilets inspected 41; 20 were clean; 21 dirty.

Yards and sheds inspected 37; all needed cleaning up.

One place had a pig, but the parties got rid of it; one place has a Jersey Bull in it which the owner refuses to remove. Three places contained chickens close to the dwelling. They have since been removed.

Stables inspected 4; clean.

Laundries inspected 6 clean.

Fish shops inspected 2 clean.

Barber shops inspected 6 clean.

Dutcher shops inspected 7 clean.

Dumps inspected 2 in fair condition.

Miscellaneous 63

This office received complaints, re unclean odors from creek in London South, from people living near same, and I spent sometime in the early part of the month investigating this creek. I found that there were seven houses running their drainage into this creek; five other parties said that they were not connected with the City sewer, but they had bought the houses after being built and had no idea where the drains let to.

I visited the downtown restaurants and cafes five times during the month, and in the east end of the City twice; once with Mr. Lumsden; once with a deputation; twice alone and once with Miss Ogilvie from the Ontario Department of Labor and Health. They all varied in conditions; kitchens and cellars in almost every case needed improvement; dining-rooms were clean, but waiters in some cases were not as clean as they might be. A general clean up was made in some cases, and notices were given to have regular garbage cans with covers on every one. The refrigerators were clean in most cases. The food being fresh and looked palatable. In one instance where a piece of lamb looked doubtful as to being fit for human consumption, I saw that it was thrown into the garbage can.

I visited, during the Fair week, the lavatories in the fair grounds every morning, and found them clean. There did not appear to be sufficient toilet accommodation for the rush days of the Fair, and I think that it would help some to have lavatories for women and children at the south end of the grounds.

Some of the pies and cakes at the refreshment booths were exposed to the flies, I spoke to the owners about it, and they placed gauze or cheese-cloth over them.

I made a visit to the Cove on the Pipe Line Road regarding a complaint about rubbish and decayed vegetable matter being deposited there. A party living near said that people who were taking produce back from the market dumped it at this point. We tacked two notices on the bridge.

I fumigated a bedroom, and received one dollar and fifty cents which I deposited with Mr. Bell.

One Police Court Case - settled without cost. Sent ten notices to clean up.

Filed.

169. CONTAGIOUS DISEASES REPORT (See pars. 8, 19, 46, 55, 56, 92, 115, 128, 151.)

Dr. Downham submitting report on Contagious Diseases reported during the month of September, 1920, viz:-

Diseases	Deaths	Diseases	Deaths
Chickenpox 9	0	Diphtheria 6	2
Diph. Susp. -	-	Measles 0	-

174. DAIRYMEN'S ASSOCIATION.
F. Hems - Chief Dairy Instructor for Western Ontario, Oct.
In further reference to my letter of recent date and to out conversation the other morning regarding a milk exhibit, may say that I have pleasure in enclosing a list of dairy utensils with their approximate cost from which a selection might be made for prizes for highest scoring milk. Perhaps ten or twelve prizes could be offered which would not bring the cost up so very high.
Perhaps the Board of Health would prefer to communicate with the milk distributors and take full charge of the exhibit in which case, of course, I would not require a list of milk distributors but if it is desired that we should communicate explaining the competition I shall be glad to have a list with post office addresses.
I am also enclosing a score card for milk which I trust will meet with your approval and may also state that I shall be prepared to submit details as to what reduction in points might be made for defects in accordance with the score card.

SCORE CARD FOR MILK.

Item	Perfect Score	Score Allowed	Remarks.
Bacteria	35		Bacteria found per cubic cent.
Flavor and odor...	25		Cow, bitter, feed, flat, etc.

Dr. Tamlin reported that he had made over one hundred visits in the last two weeks, and had ordered Cline & Patterson and M. Kirk to discontinue selling milk.

Cline and Patterson had closed up and asked for a second inspection.

Upon motion the matter is referred with power to Dr. Downham. Dr. Tamlin recommended that By-law be introduced preventing the sale of milk from any person with more than 1,000,000 Bacteria per centimetre.

Dr. Downham and Mrs. Partridge moves, and it is adopted, that the recommendation of Dr. Tamlin be adopted.

176. VENEREAL DISEASES.

Dr. Downham moves, and it is adopted, that applications for appointment of Venereal Diseases Nurse be advertised; applicants to state salary required.

177. MR. R.H. SANDERS APPOINTMENT.

Mrs. Partridge moves, and it is adopted, that Mr. R.H. Sanders be appointed to a permanent position as Sanitary Inspector, and the Chairman and Mr. Russell authorized to appear before No. 1 Committee on the matter.

178. DR. TAMLIN'S VACATION.

Dr. Tamlin reported that Dr. Wilson would attend to his duties while he was on his vacation for the next two weeks.
